Great minds think alike. I am trying to do the same thing but for non-EPA on the call.

I will fill in EPA . Would you please let me know who is on the New Mexico side?

Most of the people on the call are part of the Incident command structure recently formed for the Gold King Mine Response. I am providing the titles for the positions that they hold as part of the Regional Emergency Operations structure.

Name

Angela,

I know you are swamped, but I am trying to get a list of who everyone is on the calls put together with titles and organizations. Can you please add to the list below? I tried searching on the EPA website, but it was very slow going, as the contact info does not include titles or organization structures and I wasn't having any luck going through the individual org charts. If there is a way that I am not seeing, please let me know, but if not, can you please fill in the blanks for the following when you have a chance?

EPA:

David Garcia, Deputy Director of Water Division

James Brown, Safe Drinking Water Branch Chief

Blake Atkins, Drinking Water Section

Mark McCasland

Robert Kirkland,

Ronnie Crossland

Althea Foster

Susan Webster

Mark Hayes

Thanks,

Stephanie
